EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christopher B. Linder, Reg. No. 47,751, on March 25th, 2004, in order to cancel claims that were previously withdrawn for being drawn to a non-elected invention.

The application has been amended as follows:

IN THE CLAIMS:

Cancel claims 34-41.

Allowable Subject Matter

Claims 1, 3, 6-9, 15, 29, 31-33, 42 and 43 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record neither teaches nor reasonably suggests a chip-level electronics package, or the method of operating the package, that includes at least one monolithic waveguide with an air-gap cladding layer that engages a portion of a waveguide core that is fixed on a lower cladding layer, and where an overcoat layer engages a portion of the air-gap cladding layer and a

Art Unit: 2882

lower cladding layer such that the air-gap cladding layer is completely bound on all sides by the overcoat layer, lower cladding, and waveguide core as required by each of claims 1 and 29.

Claims 3, 6-9, 15 and 31-33 are allowed by virtue of their dependency.

The prior art of record neither teaches nor reasonably suggests a chip-level electronics package, or the method of operating the package, that includes at least one monolithic waveguide with an air-gap cladding layer that engages a portion of a waveguide core that is fixed on a lower cladding layer, and where an overcoat layer engages a portion of the air-gap cladding layer and a lower cladding layer such that the air-gap cladding layer is bound by the overcoat layer, lower cladding, and waveguide core as required by each of claims 42 and 43.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kimerling (US 6,621,972) is the issued patent of the previously cited patent application publication Kimerling (US 2002/0076188).
